To this end, it provides individualized customer service to businesses considering locating or expanding in the state, assists communities with key development activities, and develops export promotion opportunities for Missouri businesses to take products and services to key world markets. The Sales Team is organized by region (in-state and international) and industry specialization. The Sales Team works in partnership with the Research, Marketing, Finance, and Compliance Teams to achieve their common goals.

GR funds are needed to continue required program administration. Over the past few years, GR and EDAF funding have been reduced, but federal technical assistance and disaster funds were available to at least partially compensate for that reduction. Those temporary federal funds are now declining as the annual allocation is reduced. Program administration for previously authorized grants must continue for multiple years. These responsibilities include insuring rural cities and counties access to the program (training, project development) and grantee compliance with procurement, contracting, equal opportunity, fair housing, labor standards, and environmental review.

Small Business Credit Initiative Section 7.050

Book 1, Pages 315-321

Description: The State Small Business Credit Initiative was created by the federal Small Business Jobs Act (2010). Under this program, Missouri plans to receive \$27 million to support small business loans and equity investment. MTC will administer \$17 million of the funds under the Missouri IDEA Seed and Venture Capital Funds, and DED will administer \$10 million under the Grow Missouri Loan Participation Fund. A key federal requirement of this funding is that Missouri must demonstrate a reasonable expectation that the program as a whole, will leverage 10 private dollars in financing for every dollar from the program. The program must also target companies with not more than 500 employees. Under the loan participation fund, borrowers may receive up to 10% of the project cost or \$75,000 (\$100,000 for MBE/WBE per new or retained job, not to exceed \$3 million at 2% interest (0% for MBE/WBE for 8 years. Under the IDEA Fund programs, financing in the form of equity or convertible debt is available to firms that belong to an MTC-targeted industry. Loans are also available for industrial expansion that results in significant capital investment and job creation in MTC-targeted industries.

Current TIF Obligations Include:

Kansas City Midtown: infrastructure improvements and retail development at Mill Street;

St. Louis Convention Hotel: construction of a 1,083 room convention headquarters hotel complex;

Downtown Revitalization Preservation – Section 7.075

Book 1, Page 382-389

Description: This program allows a portion of the new state and local taxes created by a redevelopment project to be diverted to fund eligible public infrastructure projects, along with related costs for a period of 25 years. The purpose of the program is to facilitate the redevelopment of downtown areas and the creation of jobs by providing essential public infrastructure. An appropriation is needed to be able to capture the net new taxes generated because of the redevelopment project and be diverted to pay the debt service on bonds issued to fund the project. GR transfers into the DRPP fund in the amount of net new taxes captured and used to pay off debt are made by the Department of Revenue.

Missouri Community College New Jobs Training Program - Section 7.125

Book 2, Page 74-81

Description: The Missouri Community College New Jobs Training Program is designed to help companies create new jobs by offsetting the high cost of start-ups or expansions. The training is financed through the sale of bonds based on the number of jobs created and their respective wage rates. The debt is then retired by diverting a portion of the employer's withholding tax on the newly created jobs. The program is administered by the community colleges in cooperation with the Department of Economic Development.

Book 2, Page 82-88

Description: The Jobs Retention Training Program offers an incentive for the retention of existing jobs by providing education and training to existing industries. The program targets companies with plans to move outside the state to find skilled labor by providing assistance for workers to increase their skill level. The training is financed through the sale of bonds based on the number of jobs created and their respective wage rates. The debt is then retired by diverting a portion of the employer's withholding tax on the newly created jobs. DED must have this appropriation authority to disseminate money to the trustees to retire the bonds.
